An airport master plan describes the short-, medium-, and long-term development plans to meet future aviation demand.

Note: Master Plan Update was initiated pre-COVID-19 impacts. All development implementation is based on Planning Activity Levels (PALs) and not specific forecast years, which accommodates unforeseen events including COVID-19.
2020 MASTER PLAN GOALS

- **Meet Aviation Demand** - Guide airport development over 20 years of growth to provide exceptional services and facilities.

- **Provide Superior Customer Service** - Multimodal access, congestion-free spaces, technology-driven conveniences, and special needs accommodations, while always maintaining safety first.

- **Be Environmentally Responsible** - Build with a plan to minimize impacts to the environment and adjoining communities including noise, and emissions.

Note: Master Plan Update was initiated pre-COVID-19 impacts. All development implementation is based on Planning Activity Levels (PALs) and not specific forecast years, which accommodates unforeseen events including COVID-19.
**Completion Date:** May 2020

**Tasks Completed:**
- Inventory
- Forecast
- Facility Requirements
- Alternatives
- **Public and Stakeholder Meetings**

**Next Steps:**
- Incorporate Stakeholder Input
- Environmental Review (Addendum to EIR)
- CIP Update
- Proposed Development Plan
- ALP Update

**Note:** Master Plan Update was initiated pre-COVID-19 impacts. All development implementation is based on Planning Activity Levels (PALs) and not specific forecast years, which accommodates unforeseen events including COVID-19.
 Due to the COVID-19 crisis, the forecasted enplanements will be impacted.

Note: Master Plan Update was initiated pre-COVID-19 impacts. All development implementation is based on Planning Activity Levels (PALs) and not specific forecast years, which accommodates unforeseen events including COVID-19.
NOISE & LAND USE COMPATABILITY

The current noise contours account for the proposed master plan projects through the planning horizon.

Note: Master Plan Update was initiated pre-COVID-19 impacts. All development implementation is based on Planning Activity Levels (PALs) and not specific forecast years, which accommodates unforeseen events including COVID-19.
FACILITY REQUIREMENTS
SUMMARY

Terminal
- Additional gates and aircraft parking needed
- Additional space and equipment inside terminals needed to support new gates

Ground Transportation & Parking
- Additional close-in and remote parking needed
- Opportunity exists for a consolidated rental car facility (ConRAC) and ground transportation center (GTC)

Airfield
- Taxiway improvements for operational efficiencies and to meet FAA design standards
- Runway extension will be considered when fleet mix changes, longer haul routes are introduced, or climatic conditions create operational issues

Note: Master Plan Update was initiated pre-COVID-19 impacts. All development implementation is based on Planning Activity Levels (PALs) and not specific forecast years, which accommodates unforeseen events including COVID-19.
